BOMMERSBACH PEONIES

Plant Peony roots in average garden soil.

Plant three feet apart each way.

Plant with the top eye or bud two inches below the surface.

Plant for the future.

Use only bone meal and wood ashes on the surface.

Keep all kinds of manure from the roots.

Firm the surface soil and cover with straw, six inches deep, the first winter.

Plant in full sunshine and in well-drained soil.

When cutting for blooms, leave some leaves on stalk.

Peonies are three to five eyes, standard divisions, healthy and true to name.

Divisions are from three-year-old plants.

I grow my own Peonies. Delivery begins August 15 to December.

No spring shipment.

Ratings are by the American Peony Society.

Orders are shipped prepaid, anywhere in the United States. No order for less than \$1.00. Send check or draft.

This list contains the best varieties.

It takes a Peony root three years to overcome the transplanting, so do not expect too much at first.

Be sure to cultivate and cultivate.

PEONIES
